To encourage local farmers in sugarcane cultivation and organic jaggery production, Mohanbhog sub-division Farmers Welfare and Agriculture Development department will provide assistance to 400 eager sugarcane cultivators in the upcoming season under National Food Security Mission scheme. Each farmer will be provided financial help to grow sugarcane in 0.39Acre (1 Kani) land from which organic jaggery will be produced. Not only this, they will also be given a loan of 40 thousand rupees with 0% interest under TRLM to cultivate sugarcane. This will result in the economic growth of the farmers as well as the villages.

Covid-19 situation has taught us many things and one of them is to become self-sufficient and not rely on others for our needs. The initiative of making organic jaggery and jam is the result of encouragement and awareness among them. This is a great example of becoming truly Aatmanirbhar. We only need to be aware, positive, open minded and innovative.
