He mentioned that Bikramjit Chakma has not only attained self-reliance through this but is also inspiring others to take up the same. The state government is providing help for such venture and has also opened a nursery for those who are interested in such cultivation.

Prime Minister further said that innovation can be seen in farming which is why growing jujube apples were possible. He also mentioned about Agartala city while talking about using modern construction technology in big cities of the country. He said multi-storey flats under light house project in Agartala are being made by using New Zealand's steel frame technology which will be earthquake resistant.

Chief Minister Biplab Kumar Deb expressed his gratitude to Prime Minister Narendra Modi for mentioning about the Unakoti youth Bikramjit Chakma in Man Ki Baat programme which will help motivate other youths for jujube apple farming in the state. Chief Minister tweeted that Prime Minister has upheld the success story of a young farmer from a small state like Tripura before the national and world platform. Chief Minister said, the youth force of the state is coming forward to make Tripura Atmanirbhar.
