PRESS RELEASE

To propel the quality of education to a zenith height at government and government aided schools of the state, Govt of Tripura has collaborated with the 'Promorph Solutions' constituted with the reputed technocrats IIT Kanpur.

With the project entitled "My School, My Progress" it will be possible to empower the teachers along with the progress of the schools. With the help of the afore mentioned Organisation, School Education Department has already created a mobile app named 'EmpowerU' where the entire informations regarding curriculum, students and teachers can be easily available. Even the informations regarding the schools of the remote villages where internet is not available can be availed and stored.

The following particulars can be explored through this apps,

- 1) By analysing the data and informations the authorities can take the initiative to solve the hurdles regarding infrastructure, teaching learning process, examinations, grievance etc.
- 2) This endeavour will enable to take decision for the overall and all round development of a child and to frame policies regarding this.
- 3) To expand the horizon of quality education this endeavour will be the key instrument.

In the mean time more than 18,000 teachers have already registered themselves to this app. All the stake holders of the education like District Education Officers, Inspectors of Schools, Headmasters and Headmistress, Assistant Headmasters and Assistant Headmistress, Teacher- in - Charges and all respected teachers are here by earnestly appealed to register themselves as soon as possible to this app, if not yet registered. By completing this process they can play a pivotal role in the implementation of "Nutan Disha" Programme, a unique endeavour of the Department.
