**Tripura Government Signs Landmark Agreement
to Boost Efficiency of Government Employees**

In a major step towards enhancing the efficiency of government employees, the Government of Tripura yesterday signed a tripartite agreement with the Skill Development Commission and Karmayogi India. The agreement aims to provide structured skill development and capacity-building programs to state government employees at various levels, enabling them to deliver public services more effectively. The MoU signing ceremony was attended by Chief Secretary JK Sinha, Secretary of General Administration (P&T) Apurba Roy, Human Resource Member of Skill Development Commission Dr. R Balasubrahmaniam, Joint Secretary SP Roy, and Advisor to Karmayogi India Shobhana Rana, and Assistant Professor from SIPARD Arpita Chowdhury among other senior officials.

The agreement was formally signed by Apurba Roy on behalf of the state government, Shobhana Rana for Karmayogi India, and Dr. R Balasubramaniam for the Skill Development Commission. Speaking at the event, Chief Secretary JK Sinha emphasized that this partnership will strengthen both the professional skills and personal development of government employees. “This initiative will enhance the bond between public servants and the people they serve,” he said. He also highlighted the recent recognition of four officers from Tripura, who received the Prime Minister’s Excellence Award on Civil Services Day in New Delhi, noting it as a testament to the state's administrative competence. The agreement will facilitate comprehensive training programs for employees, introducing them to new technologies and modern administrative practices. These initiatives are expected to result in more effective governance and improved public service delivery. Dr. R Balasubramaniam reiterated the importance of the collaboration, stating that it will empower employees by upgrading their skills and opening new avenues for career growth. Other speakers, including Apurba Roy and Shobhana Rana, also underscored the transformative potential of the agreement. The event was attended by secretaries and officials from various state departments, marking a significant step toward building a more skilled and responsive administrative workforce in Tripura.
