

Earlier, such mentality was lacking. Work culture has been established in the state now. Works are under progress in the entire state to ensure health care and healthy safety through decentralization of health services, infrastructure development, e-services, transformation in Health and Wellness Centers, development of Primary Health Centers etc. Different programmes for welfare of people including Ayushman Bharat are successfully being implemented in the state presently because of right management. As the trend of referring patients outside the state has decreased because of development in health services, complicated surgeries are now possible in the state. Chief Minister lauded Prime Minister for creating study environment for girl students in the schools with his far-sightedness and right management, as a result of which, there is rise in girl students attending schools. Besides development in health sector, SHGs of the state are playing important role in creating income especially for women empowerment. Government emphasizes on increasing participation of women to strengthen their economic condition.

Chief Secretary Kumar Alok in his speech stated, let the main motive of Azadi ka Amrit Mahotsav be freedom from diseases. 'Mukhyamantri Shustho Shoishob, Shustho Koishor Abhiyan' has been implemented to build healthy Tripura in future. If people are made habituated with this service, only then its positive result will be achieved. Earlier there was lack of awareness in the country regarding hygiene. But presently, there have been many changes with positive steps taken. He emphasized providing every kind of facilities to children starting from 100% registration of the child since their birth to their school lives. He said, works are being done prioritizing child and adolescent health and development so that today's children stay protected from diseases in future. Chief Secretary emphasized on evaluation of children as to find difference brought through this programme compared to past years. He ordered to implement this programme in mission mode in the state.

Principal Secretary of health department J.K Sinha in his speech said, health safety is one of the key factors among other factors on which Azadi ka Amrit Mahotsav is being celebrated in the country. Government is working with emphasis on giving modern health services to the citizen for their health safety. Endeavour is on decentralize the health services instead of making them city-centered so that health facilities reach everyone. He expected everyone's cooperation in making this programme successful. This initiative has been taken to ensure protection of children from diseases. Others present in the programme were Director of Health Dr. Subhashish Debbarma, Director of Family Welfare and Preventive Medicine department Dr. Radha Debbarma, and Director of National Health Mission Dr. Siddharth Shib Jaiswal. Chief Minister on the day also fed disease preventive medicine to some children in the programme.
