

Chief Minister in his speech said, amidst Covid situation Tripura has set an example of success with efficiency starting from providing services in Covid situation to vaccination drive. The health workers contributed hugely to vaccinating people living in remote areas, even crossing neck level water in fight against Covid-19. Development in health services and infrastructure has been brought in the state due to proper management. Starting from construction of oxygen plant, infrastructures have been developed in various ways. It has not only lessened the number of people going outside the state for treatment, but complicated surgeries are now possible in the state. Success is achievable only if one fights with the challenge instead of running away from it. We gain more experience in critical conditions. Effort or tenacity are the ultimate factors for gaining success. The health workers through their efficiency not only tackled Covid but also gave a befitting reply to those who were spreading wrong information. All challenges can be overcome by positive mentality. 156 doctors were recruited in just 39 days through TPSC. Transparent recruitment process is continued in other departments. Starting from empowering women, the central government has taken several initiatives for welfare of people at different levels in the society. The country has been freed from communal politics.

JK Sinha, Principal Secretary, Health, in the programme said, like the artists shape mud into idols of Gods and Goddess, similarly teachers play supportive role in moulding medical students into God-like doctors. Emphasizing on making oneself capable instead of running behind success he said, capability will automatically bring success. Recently some research papers were published. Besides treatment facilities, it is important to also reflect on this matter. He said, it is not important how old one institution is but with how much efficiency is the institution working. He hoped that AGMC ranks high in national level in coming days. Others present in the programme were MLA Arun Chandra Bhowmik, Director of Medical Education Dr. Chinmoy Biswas, Health Director Dr. Subhasish Debbarma, Director of Family Welfare & Preventive Medicines Dr. Radha Debbarma, GBP and AGMC professor Dr. Kamal Krishna Kundu, GBP and AGMC MS Sanjib Kumar Debbarma.
