**Certificate Course on Insecticides Management for Insecticides
Dealers and Distributors commenced in Santirbazar**

College of Fisheries, Lembucherra in collaboration with Department of Agriculture and National Institute of Health Plant Management (NIPHM) organized a certificate course on Insecticides Management for Insecticides Dealers and Distributors at Mukut Auditorium, Santirbazar. The certificate course has commenced on August 22, 2022 and will continue till September 5, 2022.

During the inaugural programme, welcome speech was delivered by Dr. Ashok Chetri, In-charge of the event. He said, such type of training will improve the economic status of the local farmers.

About 123 Insecticides Dealers and Distributors of South Tripura District have participated in the training programme. Dr Ashok Chetri said, 12 experts will take part as resource persons to provide training on various topics and management of insects and diseases of crops, pesticide classification based on mode of action, types of formulation and usage recommendations, symptoms of pesticides poisoning first aid and their specific antidotes, briefing on responsibilities of dealers and distributors. He said, the participants will be provided knowledge about ways of properly using the insecticide. Furthermore, the expert will be delivering classes on technical information and a kit will be distributed at the end of the programme to the participants.
