Internet service in rural areas through CSC

Wi-fi service has been started through Common Service Centres in order to digitalize villages and develop digital infrastructure in the state. Using the infrastructure of Bharat net, this initiative was taken up to improve internet services in Gram Panchayats. Till October 31, 2 thousand 120 fibre to home connection have been provided. Among them, 1 thousand 708 are governmental and 412 private. This information was collected from a press release issued by the Director, Information Technology.
