

The Chief Minister also said, we have to work according to the environment. He also emphasized on bringing about change in the syllabus if needed to keep in line modernisation in different sectors including technical education instead of educating the children in conventional manner. He said, the government has recently made a benchmark with significant success in various fields. It is necessary to acquaint the new generation about these achievements including discussion in higher education sector. The government is working on priority basis to ensure all kinds of opportunities with transparency for everyone till the last person in the society. The Chief Minister stressed upon speedy implementation of different works and citizen-centric services. He said, inconsistency towards the goal is not going to bring in success. MoU has been signed in the Destination Investment-Tripura Summit 2021 to the tune of about 3 crore rupees investment in Tripura. A huge investment is going to be made in the IT sector which will escalate the process of building a prosperous Tripura. A huge possibility of commercial investment and development has originated from this Summit. This has opened up avenues of huge prospects of economic growth investment. Everyone's effort is essential to materialise the goal of next 25 years taken up by the state government. The Chief Minister called upon the officials to responsibly create connection with people of all sections through implementation of specific plans.

Information and Cultural Affairs Minister Sushanta Chowdhury in the programme said, the state government has taken decisions on how we want to see Tripura in next 25 years. ICA Minister hoped for everyone's cooperation for the successful implementation of the plans. Chief Secretary Kumar Alok said, one needs to be consistent in order to reach the goal. He emphasized on strategizing the implementation of the plans and on everyone's participation to reach the goal. Sharing his experience at work in Tripura he said, while joining my work in 1991 in Tripura, there was not even bus stand available from the airport in those days but presently the state is going to have an international airport. There was a time when police assistance was required even to install computer system in the government offices but presently, we have mobiles as mini computers in everyone's pockets. Huge changes have been observed in many areas. Our social system has changed. He hoped for everyone's cooperation including officials of every level in implementing the plans for the next 25 years. Principal Secretary Sriram Tarunikanti and other high-ranking officials were present in the programme.
