Some people are doing narrow politics by publishing fake news and videos

State government will not put up with that: Deputy CM

Some people are doing narrow politics by publishing fake news and videos. State government will not put up with that. These attempts to tarnish Tripura's cultural heritage and glory are highly reprehensible. Attempts are being made to disgrace Tripura in the country with provocation and help. State government will not let Tripura's name be disgraced at all," stated Deputy Chief Minister Jishnu Dev Varma in a press conference at the Secretariat this evening. He also said, "there never has been any religious riot in Tripura which reflects the glory of our history having lived together peacefully. We welcome criticism from other parties but this is completely conspiracy." He clearly stated to the media that everything is normal in Tripura and strongly condemned spreading of fake news and the incident happened in a protest march in Maharashtra. He urged everyone to abstain from any kind of fake news that instigates communal disharmony.
